

A message from Robert.

Dear all,

We are taking Coronavirus (Covid 19) completely seriously and our guests and staff's safety is of the utmost importance.

As of the 21st of March the restaurant and operating business is closed temporarily inline with the British Government's announcement on the 20th of March. I will reopen as and when I am allowed to do so.

Currently we have as an industry been given the lifeline of staff wages being covered but this dependant on all staff not being present at work and having no work duties to undertake.

I personally will be operating a weekly takeaway service through my outside catering business which I will be running by myself. Please see all the information on the website and through my social media channels.

I will be extending all of the expiry dates on Thompson's gift vouchers so that guests can use these once I reopen.

I will not be allowing the redeeming of vouchers against the newly formed takeaway service.

I have a fantastic guest base and a fantastic team - it is of the utmost importance that we both look after our guests as well as ensuring we can reopen when allowed to do so.

Thank you for our understanding.

We stand together in this and will do all we can to support others, if you fancy some lovely takeout food..... I'd be forever grateful.

Love and best wishes to all

Robert X
